

places, affords water power equal to the pro-
duction of all the machinery at Lowell.
Limestone and marble abound in our val-
leys, and iron and manganese in our moun-
tains. In point of agricultural and mineral
wealth the mountainous sections east of
Montpelier cannot compete with the valleys
of Otter Creek and the fertile borders of Lake
Champlain.

It is possible that many things not thought
of may be suggested in favor of the
other contemplated route. We can claim
an exemption from the natural inclination to
believe what we wish to be true. But it is
certainly true that our people should awake
to what is going on around them, and not
suffer advantages to be lost by apathy, which
might be secured by suitable efforts to pre-
vent their claims to those who are to decide
among so many conflicting interests, urged
with zeal and perseverance by people from
different sections of the state through which
the roads may be expected to pass. Besides
the meetings we have mentioned, we hold in
our hands an invitation signed by gentleman
in Northfield, Barnardston, Greenfield and
Athol, in Massachusetts, and Vernon, Brat-
tledown, Putney, New Fane and Royalston, in
Vermont, and procure a delegation from this
region to a rail road Convention to be held
at Brattleboro on Tuesday the 5th of Decem-
ber. Will the people attend to this subject, or
will they neglect to present their strong
grounds for a preference to this section of
country until the die is cast for some other
section whose claims could pass current only
by our apathy and indifference.

RETLED FIRE.—The buildings con-
sumed were the valuable Paper Mill.—
Principally owned by Henderson and Co.,
and the large gristmill owned by Doct.
James Porter, besides a small dwelling
house. The Paper Mill and Gristmill had
both recently undergone a thorough repair
and application had just been made to a
company for Insurance. In the mean time
a watchman had been kept in the Mill
every night. Messrs Henderson & Co.
had on hand 500 Reams of Paper and
about ten tons of rags. The loss is com-
puted at 15 thousand Dollars. The fire
is supposed to have originated from some
time stone in casks in the Paper Mill which
had been exposed to the rain before being
placed in the building.

The Hon. William Hubbard, has accepted
the office of 4th assistant Judge of the Su-
preme Court.

Political Abolitionists. It is now fully as-
certained that John Tyler will recommend the
annexation of Texas in his forthcoming mes-
sage to congress. It is likewise ascertained
that political abolitionists by their votes have
sent 25 bitter locofoccos to congress, who
will go for the annexation of Texas should
the interests of the party require it.

GOOD NEWS FROM MAINE.

Severance, Whig, has been elected to
Congress in the Kennebec District by about
500 majority. Gain from last trial 900. In
the 4th District Morse, Whig, has been elect-
ed by a majority of over 100. In the 5th
choice but the loco candidate is further
off than ever of an election.

In the 7th District no choice has been
made. Robinson whig is ahead and has
made large gains.

Charles B. Adams the distinguished
Professor of Chemistry and natural
History in Middlebury College left town
last week on a scientific tour to the West
Indies. He will make Jamaica chiefly
the scene of his researches. From his pe-
culiar ardor for improvement, and industry
in gathering specimens illustrative of those
branches of knowledge connected with
geology and natural history we have no doubt of
the acquisitions to himself, and advan-
tages to the institution to which he is at-
tached, which will be derived from the ex-
pansion into a region teeming with so many
varieties of animal existence.

THE WHIG STANDARD.

This is a Daily Paper recently com-
menced in Washington City advocat-
ing the election of Henry Clay. From
the matter and spirit thus far displayed
we believe it will prove a valuable aux-
iliary to the whig cause in the coming
contest. The National Intelligencer al-
ways true to the country standing alone as
it does among five strictly party papers,
each doing its utmost against the whig
cause, needs the aid of a spirited and able
daily publication such as the whig Stand-
ard promises to be, to repel the misrepres-
entations of the enemies of the common
wealth and save the country from their
machinations. As soon as the presiden-
tial campaign shall be fairly opened a
weekly paper at one Dollar per year will
be published for country circulation. The
Daily will be mailed to subscribers at five
Dollars per annum in advance.

JUNIUS TRACTS.

It may not perhaps be known to all our
readers, that a committee has been raised
by the whigs in New York, for the purpose
of circulating political tracts during the
ensuing campaign, and have procured the
services of the author of the crisis, a mil-
lion of which were put in circulation in
1840, and are believed to have had an im-
portant influence at the time. The fifth
of the series of tracts recently issued
entitled Political Abolition, an excel-
lent production to cure that heresy has just
come to hand from the Tribune office

where it is published. With the tracts,
we have received a circular from the chair-
man of the committee urging upon the
whig party in our neighbourhood the ex-
pediency of a prompt adoption of measures
to obtain and circulate them through the
towns of the county, and suggesting the
propriety of forming committees and estab-
lishing depots as centers of information
and organs of distribution where tracts and
other publications can always be had. A
remittance to the Tribune office of \$2.50
will bring one Hundred, and 20 dollars
one Thousand. Perhaps a more economi-
cal or efficient agency to the whig cause
could not be employed, and we wish that
instant endeavors would be made to con-
summate the design. Those tracts already
published are of very great national inter-
est. The titles of the preceding tracts are,
The Test, the Tariff, the Currency,
and the life of Henry Clay, all written
with a conciseness and brevity designed
to comprise the greatest amount of facts
and arguments in the smallest space, con-
sistent with a due apprehension of the sub-
jects. What patriotic whigs will aid in
carrying into effect the proposed plan.—
Now is the time to sow the seed of truth
if we would reap a harvest of whig victo-
ries next fall.

The Saturday Courier is a large
interesting sheet issued weekly in Philadel-
phia. For the purpose of a Family news-
paper for which it is designed, we know
no one more edifying to its readers. Re-
cently it has come out in a more beautiful
dress, and upon an improved quality of pa-
per, and its matter and execution and in-
fluences are highly worthy the public pat-
ronage.

The Hon. Samuel S. Phelps left
town on Tuesday, for the Capitol to resume
his station as Senator in Congress.

THE NEXT CONGRESS.

The Philadelphia National Forum, speak-
ing of the parties in the next Congress,
says:—Parties stand in a singular posi-
tion in regard to each other at this time,
each being completely checkmated by the
other. The executive department is of
course, in the hands of the Tyler party;
the Senate in those of the Whigs, and the
House Representatives in possession of the
Federal Democrats. This position of the
parties will prevent being passed, or
measures adopted, of a distinctive party
kind. The Tariff is at least safe, be-
yond the reach of those who could repeal
it; appropriations will be closely watched
by both Houses, and the Senate will hold
a check rein upon Executive appoint-
ments.

It has been asked how long Congress
will probably sit? Unless some exciting
questions is started, such as the annexation
of Texas to the Union, we cannot perceive
what will detain members at Washington
beyond the first of April. The passage
of the Appropriation bills being the chief
business to be done.

Should the House repeal the one hour
rule, as the Locos threaten to do, and there-
by give every member liberty to use as
much time as he pleases, any should the ex-
citing question of the annexation of Texas
to the Union, be introduced, there is no
knowing how long Congress may sit.

**LOSS OF THE PACKET SHIP
SHEFFIELD.**

The ship Sheffield, Popham, from Liv-
erpool, October 8, with a valuable cargo
of dry goods, hardware, &c., consigned to
Robert Kerr, arrived at Fire Island, and
took a pilot on Saturday, the 10th, at 10
A. M., wind ESE, with rain. At 1 P. M.
while in the act of hauling on the wind,
went ashore on the east bank, north
of Rome, the sea made a complete breach
over her, she striking very hard. The
masts were cut away to ease the ship.
The water by this time reached nearly to
the ceilings. The lady passengers were
taken through the sky-lights, and took
shelter in the round house on deck, in
which situation she remained fourteen hours.

During the night blue lights were burn-
ed, which were seen from Staten Island,
and the Schooner Waco went down at 2
P. M., and took off all the passengers
and all the crew, except the captain and
four seamen, who remained with the ship.
The wind had lulled, and there was much
less sea running at the time the baggage
of the passengers was saved, but the greater
part belonging to the cabin pas-
sengers was left on board to float about
the cabin. No hopes are entertained of
saving the ship. Some of the goods will
be recovered, but all will be damaged, as
the ship is full of water. The wind is now
blowing a gale from the westward.

TEXAS AND GREAT BRITAIN.—A Wash-
ington correspondent of the United States
Gazette, writes:

"Lounging among some of the 'know-
alls' of the city, I heard, this morning,
some remarks upon what is deemed a
stroke of policy in the administration, a
sort of coup d'etat. It is determined to
bring up the Texas question—not of course,
with any view of having that portion of
the earth made a part of these U. States,
but solely to throw a fire-brand into Con-
gress, and disaffect the South with the
North. The plan is laid, and hopes are
entertained of its success. I trust that
the friends of the nation will send it back
to the Executive, or postpone it until a
more convenient season."

This is not the first time we have heard
of this design on the part of the acting
President. To excite a furious sectional
feud between the North and South, at the
hazard of the peace of the country and
the continuance of the Union, is well un-
derstood to be his last desperate push for
a re-election. With this view, he will
bring forward the subject of Texas, and
the grasping ambition of England, in his
Message, and strive to lash the people of
the South into a rage. Mr. Henry A.

Wise, whose amiable and pacific temper
delights only in universal confusion, is to
have charge, we presume from a late letter
of his, of this branch of our foreign re-
lations.

We incline to the opinion, that a ques-
tion of this character, to obtain the con-
sideration of the American people, will
have to be introduced under more promi-
sing auspices than those of Mr. John Ty-
ler and Mr. Henry A. Wise.—*Richmond
Whig.*

A SHOEMAKING MACHINE.—The New
York Evening Post gives the following de-
scription of the manner of making shoes
by a machine owned by a gentleman of
that city.

The sole leather is first pressed between
wooden rollers, which makes it extremely
firm and compact, much more so than ham-
mering can do. It is then placed under a
cutting machine, which at one operation
cuts it into proper shape. Meanwhile an-
other machine is busy making steel wire
into screws of about three feet in length,
all of which is done with surprising celer-
ity. A fourth machine punches the sole
with holes, in the screw and cuts it off
at the proper length. All that is then nec-
essary is to rivet the screws by a few blows
with a hammer on an anvil.

Rev. Dr. Nott, of Franklin, Conn.,
brother of President Nott, Union College,
is ninety years old. He was first settled
where he now remains 60 years ago, and
still performs his public duties without as-
sistance. Two entire generations have
passed away in the town since his settle-
ment.

ANOTHER APOSTASY.—The English pa-
pers announce that the Rev. Charles Sea-
ger, M. A., late Fellow of Worcester
College, has joined the communion of the
Church of Rome. He was the assistant
of Dr. Pusey.

MICHIGAN.—It appears that Washen-
aw county has elected one Whig Repre-
sentative, making a total of three in the
State, as far as heard from. Barry's ma-
jority for Governor in said county is only
159.

The following interesting anecdote
of Mr. CALHOUN and Mr. McDUFFIE is
related by the Journal of Commerce:

"When an appropriation to the State
College at Columbi was opposed in the
South Carolina Legislature, on the ground
that it had never done any good, and was
only open to the sons of the rich, Judge
Huger said, in reply, 'If the College had
never educated but one man, and that
man was George McDuffie, it deserved
all the money the State had ever bestowed
upon it.' Mr. McDuffie therefore de-
clared, that, however much he was indebted
to that institution, all the usefulness
which his exertions had accomplished, and
all the future honors which awaited him,
were due to Mr. Calhoun. He was he who
had educated him at his own expense, and
to him he wished all the honor awarded.
Mr. McDuffie was born of obscure and
poor parents, in a log hut, in the pine woods
of Georgia."

NOTICE.

The Board of appeals within the sixth
Regiment of the militia of this State, will
hold its annual session, at the office of
Barber and Wright in Middlebury in the
County of Addison, on the First Tuesday
of December next at one o'clock P. M.
The Clerks of Companies and appellants
will take notice and enter their appeals
with the President of said Board by the first
day of the Term.

MIDDLEBURY ACADEMY.

At a late meeting of the Trustees, it was
found necessary to make extensive repairs
in the Academy building. As it would be
inconvenient to make these repairs in the
winter and impossible to make them as
thoroughly, as is contemplated, before the
commencement of the next quarter, the
Trustees have procured an apartment in
the East College for the present accommoda-
tion of the members of the Academy, and
employed as their Instructor, Mr. Samuel
J. M. Conant. From the representations
which have been made respecting Mr. Con-
ant's qualifications the Trustees do not
hesitate to recommend him as well qual-
ified to instruct not only in the English, but
in the Classical Department. The next
quarter will commence on Wednesday the
29th inst. T. A. MERRILL, Register.
Middlebury, Nov. 21, 1843.

Newton Academy.
SHORHAM VT.

The winter term at this institution will
commence on Monday the 27th of Novem-
ber.

EBEN BUSH SEC.

A First Rate
Assortment of Beaver Cloths, Broad Cloths,
Cassimeres, Sattinets, and all kinds of trim-
mings will be found at A. FRANCIS'

Female Seminary.

The winter term will commence on
Thursday Nov. 30th. Miss Strong, whose
high recommendations as a teacher have
been amply sustained the last quarter, will
continue to assist in the general instruction
of the school, and in giving lessons in vocal
and instrumental music.

PROBATE NOTICES.

STATE OF VERMONT,
District of Addison ss. }
BE it remembered that at a Probate Court held at
Middlebury in and for the District of Addison, on the
16th day of November A. D. 1843.
Horace Jones and Orin Field guardians of ALAS-
TON PECK, of Cornwall in said District an insane
person, make application to said Court, to have the
time allowed them for the payment of the debts of their
said ward extended one year from the expiration of
the time heretofore limited by this Court: It is there-
fore ordered that the said application be considered
at a session of said Court to be held at the office of
U. H. Everett Esq. in Shoreham in said district on
Friday the 8th day of December next at one o'clock
in the afternoon and that notice thereof be given to
all persons interested that they may appear and make
their objections if any they have to the said time being
extended by publishing a certified copy of this order
in the Middlebury People's Press—a newspaper print-
ed at Middlebury three weeks successively previous
to the time of said Court: It is also ordered that the
said administrators give notice thereof to all persons
interested that they may appear, and make their
objection if any they have to the said time being
extended by publishing a certified copy of this order
in the Middlebury People's Press, a newspaper print-
ed at said Middlebury, three weeks successively
previous to the time of said Court.

DR. RICHARDSON'S
Concentrated Sherry Wine Bitters.

Most diseases arise from a derangement of the
stomach and bowels; and the symptoms which
subside from these and other parts of the hu-
man system give rise to irregular appetite, lan-
guor, drowsiness, wandering pains, headache,
lowness of spirits, &c. And these in their turn
give birth to dyspepsia, palpitation of the heart,
shortness of breath, jaundice, piles, fevers, inflam-
mation, tumors, coughs, &c. All these disor-
ders are cured by removing the primary cause.—
Which can be done by using Dr. Richardson's
Jaundice or Sherry Wine Bitters.

Just received and for sale by
RUSSELL & GRIDLEY.
Middlebury, Nov. 1843.
